CALIFORNIA PROPOSITION 65 COMPLIANCE

Superior Fibers contracted an independent testing laboratory to determine product compliance in regard to California Proposition 65. Results concluded that the Superior product material content is in compliance with the Proposition 65 regulation.

Superior Fibers products do not require warnings under the requirements for Proposition 65 because the levels of formaldehyde off-gassing are below the threshold limit established by the OEHHA.

Rod Wilkins

A handwritten signature in black ink, appearing to read "Rod Wilkins", written over a horizontal line.
